

TELL YOUR NEIGHBORS EXPANSION IS NOT DEAD.

PROPONENTS NEED *YOUR* APATHY.

Some decision makers are already saying that you don't really care,
and for that matter you don't count!

**The impact on your families will be enormous.
Contribute *YOUR TIME* and *YOUR MONEY*.**

SPEAK OUT AND SUPPORT US OR WE WILL NOT BE ABLE TO STOP IT.

People favoring expansion are waging a well funded, coordinated public relations campaign throughout Southern California and in Washington D.C. claiming:

- Expansion is required to keep foreign carriers at LAX (and the \$\$ they bring)
- Safety necessitates separating runways to the north.
- LAX must be expanded to be clean, safe, secure, and convenient.

None are true, but lies repeated often enough have been taken as fact. We lost the Alternative D expansion battle last time. Only a lawsuit stopped it.

It will take a million dollars to go back to court to fight another complete battle.

THE CONSEQUENCES OF A LOSS ARE VERY BIG! The LAWA proposal was previously dumped, but they expect to win this time.

- Moves northern runway 24R 340' (or more) closer to Westchester-Playa del Rey (requires Lincoln Blvd to be moved and a way to get to LAX).
- ELIMINATES ONE-THIRD OF THE BUSINESS DISTRICT AND MORE HOMES.
- Creates a new Western Airport with western access and a ring road for traffic.
